Hi all,

I wanted to take this opportunity to convey how much your time and participation in this review process are greatly appreciated! Thank you for your thoughtful comments. The team is going through the comments and will identify various issues for discussion. When we have that, then I will work to set up a meeting to discuss these issues.

Thanks,
Samantha

Subject: Formaldehyde review comments and discussion meeting

Hi all,

First thank you all for agreeing to participate in this important review step for NCEA. It is greatly appreciated. For those of you in the "to" line in this email, you may recall that the deadline for comments is July 8th. I am in the process of scheduling a discussion meeting so that you all can walk through your major comments with the larger group and the assessment team. Given the number of sections and individual reviewers (see table below), I will likely schedule two meetings grouping reviewers/sections as appropriate. Be on the lookout for meeting invites in the near future.

Please note that prior to contacting each of you, we brought in three primary reviewers (Lynn Flowers, John Vandenberg, and Vince Cogliano) to review the overall assessment. We will be hosting a meeting for them to discuss their comments on Tuesday, July 12th from 9:00am to 10:30am. If you would like to sit in as an observer, please let me know.

Thanks again for your commitment and assistance in moving this assessment forward!

Samantha
